

## 1 Get the 3D Home app

- Download the Zillow 3D Home app on your iPhone.\*
- Open the app and log in to your Zillow profile.

## 2 Capture your panoramas

- Tap **Create 3D Home** and enter the listing's address.
- Hold your iPhone vertically or mount it on a rotating head and tripod.
- Align your iPhone with the red rectangles on the display until they are green.
- Standing in place, slowly turn to the right in a full circle.

## 3 Add rooms

- After completing a panorama, tap **Add** to select your next location.
- Include panoramas of connecting hallways.

## 4 Upload and finish

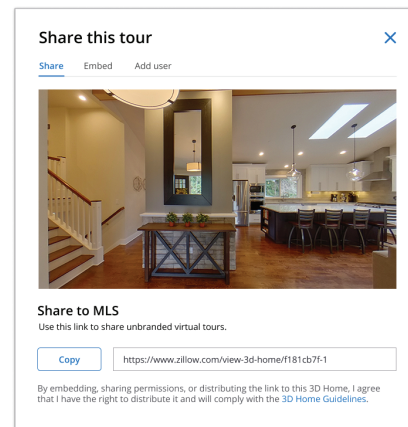

- While connected to Wi-Fi, upload all of your panoramas to Zillow. Once they have been uploaded, tap **Done with home**.

## 5 Edit, manage and share 3D Home tours

Zillow will automatically create your 3D Home tour and email you when it's complete.

- Log in to Zillow with the email address you used to create your 3D Home tour.
- Head to your dashboard at [zillow.com/my-3d-homes](https://www.zillow.com/my-3d-homes).
- Use the editing dashboard to edit your 3D tours and get links to share them.

## 1 Get the Zillow 3D Home app

- Download the Zillow 3D Home app on your iPhone or iPad.\*
- Open the app and log in to your Zillow profile.

## 2 Connect your Ricoh camera

- Turn on the Ricoh Theta V or Theta Z1 camera and press the wireless button.
- In the app, select **Create 3D Home** and choose **Connect 360 Camera**.
- Follow the on-screen instructions to enter the serial number on the bottom of your camera.

## 3 Capture your panorama

- Attach your camera to a monopod or tripod and set approximately at shoulder height.
- Enter the listing's address to attach the 3D Home tour.
- Point your camera at the room's most interesting feature and preview your screen.
- Set the timer and tap the shutter button on your phone. Take your phone and move out of sight while the panorama is being captured.

## 4 Add rooms

- After completing a panorama, tap **Add** to select the next location.
- Include panoramas of the connecting hallways.
- Repeat to capture the entire home.

## 5 Upload and finish

- Your panoramas will automatically upload to Zillow. Once they have finished uploading, tap **Done with home**.
- Zillow will automatically create your tour and email you when it's complete. On average, this should process within 20 minutes.

## 6 Edit, manage and share your 3D Home tours

Once your tour has finished processing, review and edit your tour.

- Log in to Zillow with the email address you used to create your 3D Home tour.
- Head to your dashboard at [zillow.com/my-3d-homes](https://www.zillow.com/my-3d-homes).
- Use the editing dashboard to edit your 3D tours and get links to share them.
